Sourabh Thakur
Software Developer

Summary

Hardworking and enthusiastic entry-level software developer with a strong foundation in web and desktop application development. Completed a diploma in Software Development from SAIT with hands-on experience in real-world academic projects. Skilled in building responsive websites and user-friendly apps with clean design and functionality. Known for being a fast learner, supportive team member, and someone who always takes initiative. Eager to grow and contribute to a dynamic IT team where I can keep learning and make a meaningful impact.
Skills

- **Programming:** Python, JavaScript, C#

Projects (https://protfolio-1-ten.vercel.app/projects)

Portfolio Website (working)
GitHub: https://github.com/SourabhThakur01/protfolio-1
- Built a personal website to show my skills and projects
- Designed a simple and clean layout that's easy to use
- Made sure it works well on all screen sizes, including phones

Flight Booking System
GitHub: https://github.com/SourabhThakur01/FlightBooking
- Created a desktop app to book and manage flights
- Used XML to organize and store the data
- Wrote the code in a neat way with checks to avoid errors during use

Gamer Hub (UI Design)
Figma:https://www.figma.com/design/2mbRF3ZKdFAZSdCP7VBuPs/Gamers-Hut?node-id=1-732&t=jE7oXmI06B5Gegzr-0
- Designed a gamer social media app UI in Figma with login, chat, and news pages
- Focused on clean layout, colors, fonts, and user-friendly design
- Learned key UI/UX concepts and how to build connected app screens in a team
